1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Lancaster School District has planned to allocate funds from Proposition 28 to support the development of its arts education programs at all sites. This initiative will benefit both students and faculty alike. The district will focus on enhancing both visual and performing arts offerings. It plans to implement initiatives aimed at building artistic skills, fostering creativity, and increasing student engagement. The 2023-24 school year was used as a planning year for the implementation of these funds. In the 2024-25 school year, the district will support four music positions to enhance elementary music education throughout the district and will provide support for arts teachers at the middle school level where possible. Lancaster School District has previously made considerable strides in introducing elementary music at five sites and will use Proposition 28 funding to build on that progress. Moving forward, the goal is to ensure all students have access to performing arts at their school sites. This progress will be detailed in our 2024-25 annual report.
